

# GROUP **PROFILE**

---

We are a multidisciplinary group with more than 30 years of experience in offering competent and quality solutions to our clients in the energy, steel, oil& gas, mining, construction and naval sectors.

## AN **INTERNATIONAL** COMPANY

Not only operating on Spanish soil, IMSAgroup has had on-site operatives in France since 2011 and serves clients from other European countries such as Holland, Belgium, Italy and Germany. However, the final destination of our fabrications can be anywhere around the world.

33

Million euro  
turnover for 2016

600

Operatives  
throughout the  
group in 2016

# FACILITIES & CAPABILITIES

---

At our headquarters, based in Avilés Asturias, we analyse the needs of our clients and coordinate the different business lines. The construction of a new set of offices is planned and is expected to be finished by 2019.

## OUR **WORKSHOPS**

IMSAGROUP – CPR Fabrications is based in two workshops, one in Logrezana and the second Langreo. Overall we have 6500 m<sup>2</sup> of covered workshop floor and 9000 m<sup>2</sup> of laydown area. In our workshops we have capacity to handle (within our workshop) single pieces up to 82 tons and have a maximum height under the hook of 10 meters.

Metal forming processes readily available at our workshop consist of oxi-acetylen cutting, bending, hydraulic pressing, arc welding and manual welding.

Our facilities are ideally located for the transportation of any equipment as we are 10 minutes away from the port of Avilés, 20 minutes away from the port of Gijón and 3 hours away from the port of Bilbao.

At IMSAGROUP – TMC piping, located in Los Campos, Avilés, we work with pipe diameters from 1" up to 36" and with materials ranging from PVC and rubber lined to Steel alloys and stainless steel.

# **FIVE** BUSINESS LINES

## ONE SINGLE POINT OF CONTACT

---

Depending on client needs, one or more of IMSAgroup's, five divisions/ business lines are assigned to a project so that all the required expertise to execute the work are available and ready. Our divisions are:

### **INSTALLATIONS & DECOMMISSIONING**

IMSAGROUP installations & decommissioning can carry out on-site mechanical installation and assembly of equipment supplied by the client or manufactured by CPR Fabrications. Additionally, they can disassemble and dispose of out-of-date equipment.

### **MAINTENANCE**

IMSAGROUP maintenance carries out on-site repairs and maintenance as per client requirements. Alongside the installations & decommissioning division, they can carry out activities during plant turnarounds and outages and provide commissioning support.

## CPR FABRICATIONS

IMSAGROUP CPR fabrications manufactures medium and heavy welded constructions based on client's designs. They have several manufacturing workshops and can offer the client the finished product by taking responsibility for the surface finish, NDT's, heat treatments, insulation and machining.

## INFRASTRUCTURES

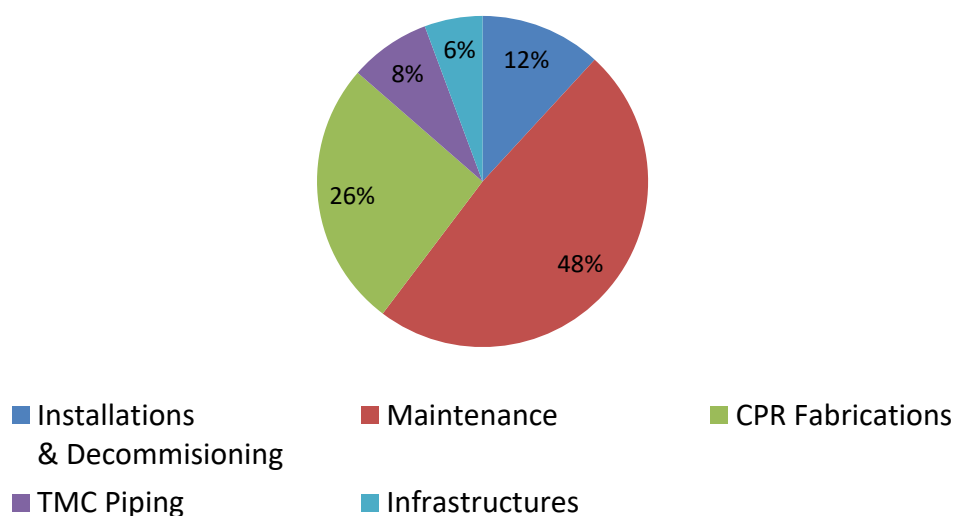

IMSAGROUP infrastructures has two branches:

Manufacture and assembly of metallic bridges. These are fabricated as per client design in our workshops and then assembled on-site.

Tunnel boring machine (TBM) electromechanical maintenance and assembly and disassembly of the TBM itself.

## TMC PIPING

IMSAGROUP TMC piping is our division specialized in naval and industrial piping. They can prefabricate in their workshops and then install the piping on-site.

Customer: Petronor (Repsol Group)

Location: Bilbao, Spain

Client Installation: Refinery

Type of project: Turnaround works

Year: 2016 / 2017

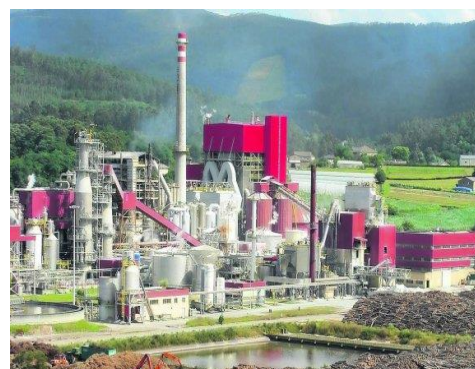

Customer: Ence

Location: Navia, Asturias, Spain

Client Installation: Chemical plant

Type of project: Debarker modification

Year: 2017

Customer: EDP

Location: Soto de Ribera, Asturias, Spain

Client Installation: Coal fired power plant

Type of project: Turnaround works

Year: 2017

# MAINTENANCE

## References

---

Customer: ICL

Location: Barcelona, Spain

Client Installation: Potash mine

Type of project: Maintenance

Year: 2013 - Present

Customer: Hunosa

Location: Mieres, Asturias, Spain

Client Installation: Coal preparation plant

Type of project: Maintenance

Year: 2001 - Present

Customer: Asturiana de Zinc (Glencore)

Location: Asturias, Spain

Client Installation: Zinc extraction

Type of project: Maintenance

Year: 2016 - Present

# CPR FABRICATIONS
